

# THE SPRINGER SERIES ON DEMOGRAPHIC METHODS AND POPULATION ANALYSIS

Series Editor

**KENNETH C. LAND**

**Duke University**

In recent decades, there has been a rapid development of demographic models and methods and an explosive growth in the range of applications of population analysis. This series seeks to provide a publication outlet both for high-quality textual and expository books on modern techniques of demographic analysis and for works that present exemplary applications of such techniques to various aspects of population analysis.

Topics appropriate for the series include:

- General demographic methods
- Techniques of standardization
- Life table models and methods
- Multistate and multiregional life tables, analyses and projections
- Demographic aspects of biostatistics and epidemiology
- Stable population theory and its extensions
- Methods of indirect estimation
- Stochastic population models
- Event history analysis, duration analysis, and hazard regression models
- Demographic projection methods and population forecasts
- Techniques of applied demographic analysis, regional and local population estimates and projections
- Methods of estimation and projection for business and health care applications
- Methods and estimates for unique populations such as schools and students

Volumes in the series are of interest to researchers, professionals, and students in demography, sociology, economics, statistics, geography and regional science, public health and health care management, epidemiology, biostatistics, actuarial science, business, and related fields.

The titles published in this series are listed at the end of this volume.

# Healthy Longevity in China

## Demographic, Socioeconomic, and Psychological Dimensions

## Contents

- 1 Introduction: Aging and Aged Dependency in China** ..... 1  
Dudley L. Poston Jr. and Zeng Yi

### Part I CLHLS and its Data Quality Assessment

- 2 Introduction to the Chinese Longitudinal Healthy Longevity Survey (CLHLS)** ..... 23  
Zeng Yi
- 3 General Data Quality Assessment of the CLHLS** ..... 39  
Danan Gu
- 4 Reliability of Age Reporting Among the Chinese Oldest-Old in the CLHLS Datasets** ..... 61  
Zeng Yi and Danan Gu
- 5 Age Reporting in the CLHLS: A Re-assessment** ..... 81  
Heather Booth and Zhongwei Zhao
- 6 Assessment of Reliability of Mortality and Morbidity in the 1998–2002 CLHLS Waves** ..... 101  
Danan Gu and Matthew E. Dupre

### Part II The Effects of Demographic and Socioeconomic Factors

- 7 The Effects of Sociodemographic Factors on the Hazard of Dying Among Chinese Oldest Old** ..... 123  
Dudley L. Poston Jr. and Hosik Min
- 8 When I'm 104: The Determinants of Healthy Longevity Among the Oldest-Old in China** ..... 135  
D.A. Ahlburg, E. Jensen and R. Liao

<b>9 Association of Education with the Longevity of the Chinese Elderly</b> . . . 151 Jianmin Li
